Bluetooth Lock Box

ABOUT SHOPIN

With strict quality control system to check on layer upon layer for zero drawback products, Shopin Lock company has owned over 40 years experiences in manufacturing combination locks, padlocks, trailer locks, as well as hardware accessories, and we also able to do customized designs, in accordance with Philosophies in Management "Good Faith", "Service", "Quality", "Innovation", developing processing technology by ourselves, our company is pursuing for product standardization, reputation for honesty is remarkable, as well as acquired market superiority and enhanced enterprise competitive ability at the same time.

We customize all kind of padlocks according to customers' requirement, R & D by ourselves, and obtained numbers of International Patents, according to specialized know-how as the predominant R & D development, shortened time in design and product manufacturing process, cost control, make efficacious production and tranquil growth; from contacting case to design to mock-up samples and then mass production to delivery, all completed with highly standard operation process by our company.

We simultaneously apply CAD/CAM system to modify and promote design and manufacture ability, ceaselessly develop to provide zero drawback products, and all tests will be completely recorded for the convenience of tracking & checking, as well as perfect services to satisfy customers' requirement. There's no boundary without breakthrough by us, and there's no delimited aspects; what we do are the most actually & adroitly alterations.

Our firm (Our factory deeply realized that only by grasping the tendency, together with unfolding mickle strength, to acquire the leading status on this wave of industrial competitions.

We insist on only by "excellent skills in professional technology & knowledge", "surpass our ego", "enthusiastic innovation", and "everlasting management" to create the future together!

CP-7002B

- Protects any hitch mounted item from theft of trailers & expensive towing components.
- Available in 1/2" sizes for Class I, II, III or IV hitches.
- Dust cap seals out dirt and water for trouble-use.
- Tough rugged construction for years of dependability.
- Chrome Finish
- Size: 1/2" Diameter x 2-3/4" Long

CP-7003

- Designed for use on latch-type Couplers which have a locking hole through the handle
- Tough rugged construction
- Keep threaded stud section of lock lightly lubricated

CP-7005

- Made with a black-plated die-cast zinc body.
- Weather-resistant and perfect for securing spare tires on vehicles, boats, or trailers.
- Use on spare tires only.

CP-7006

- Size: 5/8" Diameter x 3" Long

TSA PADLOCK

The transportation Security Administration (TSA) screeners and airlines check-in staff at air ports are trained to recognize the Travel Sentry logo. They understand that baggages with locks displaying this mark are permitted to remain locked. TSA screeners have access to special codes that allow them to open these locks in the event that the baggages must be opened for inspection. With Travel Sentry Certified locks the TSA can screen checked baggage faster without having to break open locks.
